Challenges

- Inalfa Roofing Systems implemented ERP LN FP9 at North America and Europe.
- They wanted to roll out the same at China
- Major challenge was to find the Chinese speaking ERP LN Resources were in Finance , Logistics and Manufacturing consultants
- The entire coding , system architecture and design was in Chinese language

Benifits

- Merino Consulting Services was able to provide them Strong Chinese speaking Sr ERP LN Functional resources who not only performed the ERP LN Implementation Roll-out but also manage to provide excellent Handholding and Knowledge transfer to Key and End users of Inalfa china

Customer Testimonial

Infor Global Partner companies like Merino not only have Infor ERP LN Skills in English but also in other languages like Chinese and Korean .Merino's Multi-lingual domain expertise is commendable

We also would like to thank Mr TC Lim, Their principle Finance consultant who has helped us immensely in managing this Chinese Roll-out.
