

Customer Profile

Krohne Messtechnik Increased operational efficiency and global visibility by implementing Infor 10x with help from Merino Services

Facts at a glance

Solution:	Implementation of LN for their Oil and Gas business
Products:	ERP LN FP 10.3
Industry:	Manufacturing
Country:	Germany

About Company

- The company was formerly known as LUDWIG KROHNE & SOHN. KROHNE Messtechnik GmbH was founded in 1921 and is based in Duisburg, Germany with production facilities in Brazil, India, China, France, the United Kingdom, the Netherlands, Germany, the Russian Federation, Sweden, and Norway.
- KROHNE Messtechnik GmbH designs, develops, manufactures, and supplies solutions in industrial process instrumentation. It offers flow measurement products, such as electromagnetic flowmeters with ceramic liners for highly corrosive media in chlorine chemistry; mass flowmeters for highly viscous media and low flow speeds; ultrasonic flowmeters for custody transfer; vortex measuring devices with integrated pressure and temperature compensation; and variable area flowmeters to ensure the redundancy and the certainty of the system.
- It offers level measurement solutions, such as process radar devices; level switches for liquids and solids; and mechanical level meters
- It offers temperature measurement products, such as industrial thermometers and transmitters; compact pressure measurement pressure gauges high precision and long-term stability; and gas and steam measurement products.
- It offers analysis instruments and analysis solutions, including spectroscopic inline analysis system for the continuous measurement of ingredients in milk products, frying oils, and dairy wastewater; and modular analysis products for solutions in secondary, wastewater, and sludge treatment processes.
- It offers spare parts; pre and after sales services, such as on site start-up and commissioning, checking devices, and repair devices; and recalibration and training. It serves oil, gas, water, wastewater, chemical, petrochemical, food, beverage, power, mineral, mining, marine, pharmaceutical, pulp, paper, HVAC, iron, steel, and metal industries. It sells its products through representatives worldwide.

Challenges

- Krohne wanted an Integrated system for all companies world wide (multi site locations)
- Better Visibility

Solution

- As Merino Consulting, we implemented ERP LN FP 10.3 for their Oil and Gas business by building a model and integrating in core single logistics environment

Benefits

- Krohne Messtechnik Increased operational efficiency and global visibility by implementing Infor 10x with help from Merino Services
- Krohne had a better visibility of their application globally
