# Jubilant Fresh Pvt. Ltd. increased operational effeiciency by implementing Infor 10x from Merino Services

## Challenges

- Remapping of existing Business Process & delivery work flow
- Financial Statements based upon business segments
- The solution must provide user friendly interface for the end user
- It is desirable that the solution be HTML5 compliant, so that the same can be used in mobile devices as well
- Visibility of Owned Inventory lying at Customer's Store
- Automation of Customer's Sales Data into Own legacy system
- Automation of Purchase using weighbridge
- Tracking of Inventory as per the F&B norms
